Aigars Alutis

Junior Frontend Developer | Building skills in modern web tech |
Eager to learn & deliver
Berlin, Berlin, Germany

Summary

My strength lies in the ability to connect human intuition with the potential of artificial intelligence :).

I work with HTML, CSS, and JavaScript, and I use ChatGPT not as a replacement for knowledge, but as a creative partner – an extension of my own thinking.

This synergy allows me to learn new technologies faster, solve problems more efficiently, and build projects where logic meets AI-driven innovation.

A modern developer doesn't just write code – they know how to use the right tools wisely. And that's exactly what I do.

Experience

Autoservice KNAUS

Project Manager
March 2019 - February 2020 (1 year)
Berlin, Germany

self-employed

Bitcoin Miner
March 2016 - March 2019 (3 years 1 month)
Riga, Latvia

During the period of 2016 to 2019, I pursued individual Bitcoin mining, building powerful computers with graphics chips purchased by myself. I was responsible for the installation of software and monitoring of the mining process. Special spaces were rented for computer storage.

Kudamm Automobile

Project Manager
April 2018 - January 2019 (10 months)
Berlin, Germany

SIA Erg Auto

Project Manager

March 2015 - August 2017 (2 years 6 months)

Riga, Latvia

Education

Tel-Ran.de GmbH

web developer · (March 2022 - March 2023)
